

FOR the LORD thy God
bringeth thee into a good land
a land of brooks of water,
of fountains and depths that
spring out of valleys and hills:
A land of wheat, and barley,
and vines and fig trees,
and pomegranates:
a land of oil olive, and honey:
A land wherein thou shalt eat bread
without scarceness thou shalt not
lack anything in it: a land
whose stones are iron, and out
of whose hills thou mayest
dig brass.

Deut. viii 7-8:9.

**Records of the Annual Town Meeting held in Snow's
Hall, Millis, Mass., Monday evening,
February 21, 1927**

Meeting opened by Moderator Rudolph F. King, at
7:45 P. M.

Article 1. To choose a Moderator for one year, a Town Clerk for one year, a Town Treasurer for one year, Two Constables for one year, One Auditor for one year, One Tree Warden for one year, One Selectman for three years, One Overseer of the Poor for three years, One Assessor for three years, One School Committee for three years, One Trustee of Public Library for three years, One Cemetery Commissioner for three years, One Park Commissioner for three years, One Sewer Commissioner for three years, One Tax Collector for one year, one Water Commissioner for three years. All the above to be on one ballot.

Article 1 of the Town Warrant having been acted upon at the meeting held Monday, February 14, it was at this time passed and Article 2 acted upon.

Art 2 To hear and act on the reports of Town Officers and Committees

Voted that the several reports of the Town Officers and Committees be acted upon separately as found in the Town Report for year 1926.

All reports taken up separately and in each case voted that they be accepted as printed.

Article 3. To see if the Town will appropriate the sum of \$22,400.00 to pay bills of Attorney and Engineers in deference of the Sewer Assessments, or act in any manner relating thereto.

Voted that the Town appropriate the sum of \$240.25 to pay bills of Attorney and Engineers in deference of the Sewer Assessment.

Art. 4. To see if the Town will appropriate money to extend the Sewer system with two additional sewer lines and a drainage cut in Townee. All appropriation there shall be raised in the current years levy the sum of \$1,000 and that the Freeholder with the approval of the Selectmen be and hereby is authorized to issue notes to an amount not to exceed \$14,000 per annum in accordance with the provisions of Chapter 44 of the General Laws of the State of Massachusetts more than 14 years from the date of issue of the first note or bond issued or such earlier date as the Freeholder and Selectmen may determine or at any other matter relating thereto.

First voted not to pass the Article. This vote being faulted it was voted by a majority of 10 yeas and 7 nays that the Article be withdrawn. The result of this vote was doubted it was again voted by a majority of 10 yeas and 5 nays that the Article be finally voted to be a passed.

Art. 5. To see if the town will appropriate the sum of \$250.00 for the maintenance of law and order or at any manner relating thereto.

Voted that the sum of \$250.00 be appropriated for the maintenance of law and order.

Art. 6. To see what action the Town will take in purchasing any part of the Sewerage Installation in accordance with Chapter 124, Section 1A of the State Laws or at any manner relating thereto.

Voted to dismiss the Article.

Art. 7. To see what disposition the Town will make of the money retained by the county on account of dog licenses.

Voted that the money refunded by the County on account of dog licenses be used for library purposes.

Art. 8. To appropriate money for all necessary town expenses, including a sum sufficient to pay all town officers' salaries.

Voted to appropriate

For snow removal	\$4,000.00
Salaries	4,000.00
Incidentals	2,500.00
State Aid	200.00
Public Library	300.00
Poor Department	2,500.00
Sidewalks and Bridges	1,000.00
Street Lights	1,400.00
Soldiers Relief	200.00
Debt and Interest	19,772 50

\$2,602.50 to be taken from Sewer Assessment Funds, leaving net sum \$17,170.00.

Art. 9. To see if the town will vote to appropriate a sum of money for special repairs on such streets as are selected by the Massachusetts Highway Commission acting in conjunction with the State and County, or act in any manner relating thereto.

Voted Yes 105, No 1, that the town appropriate \$10,000 for finishing Main Street from present line of new construction to the Medfield Bridge, providing the State and County assist.

Art. 10. To see if the town will appropriate the sum of \$300.00 toward the support of the District Nurse, or act in any manner relating thereto.

Voted that the sum of \$300.00 be appropriated for the support of the District Nurse.

Art. 11. To see if the town will vote to appropriate the sum of \$746 42, said sum being the portion of the expense

incurred and apportioned by the County Commissioners for the care and maintenance of the Norfolk County Hospital, or act in any manner relating thereto.

Voted that the sum of \$74.42 be appropriated for that portion of the expense incurred and apportioned by the County Commissioners for the care and maintenance of the Norfolk County Hospital.

Art. 12. To see if the town will vote to appropriate the sum of \$1,428.25 for the suppression of the Gypsy and Brown Tail Moth and Elm Leaf Beetle or act in any manner relating thereto.

Motion made that the sum of \$1,428.25 be appropriated for the suppression of the Gypsy and Brown Tail Moth and Elm Leaf Beetle.

Motion amended to raise the appropriation to \$15,000. Amendment lost.

Voted to appropriate the sum of \$15,000 for the suppression of the Gypsy and Brown Tail Moth and Elm Leaf Beetle.

Art. 13. To see if the town will vote to appropriate a sum of money for the Tree Department or act in any manner relating thereto.

Voted that the sum of \$3,000 be appropriated for the Tree Department.

Art. 14. To see if the town will vote to purchase new Fire Hose for the Fire Department or appropriate money for the same, or act in any manner relating thereto.

Voted that the sum of \$2,000 be appropriated for the purchasing of new Fire Hose for the Fire Department.

Art. 15. To see if the town will vote to appropriate a sum of money for the use of the Board of Health, or act in any manner relating thereto.

Voted that the sum of \$500 be appropriated for the use of the Board of Health.

Art. 16. To see if the town will vote to appropriate a sum of money for the use of the Park Department, or act in any manner relating thereto.

Voted that the sum of \$375.00 be appropriated for the use of the Park Department.

Art. 17. To see if the town will vote to appropriate a sum of money for repairs on Spring Street from Main Street to Plain Street, also to install another electric light on said street, or act in any manner relating thereto.

Motion made that the sum of \$300.00 be appropriated for repairs on Spring Street.

Motion amended and carried to read \$800.00 instead of \$300.00, and that an electric light be installed in front of Mrs. McDonough's residence, by a rising vote "Yes" 64, "No" 19.

Voted to appropriate the sum of \$800.00 for repairs on Spring Street and that an electric light be installed near the residence of Mrs. McDonough.

Art. 18. To see if the town will vote to install an electric light at the junction of Main and Village Streets, or act in any manner relating thereto.

Voted to dismiss the Article by rising vote "Yes" 40, "No" 27.

Art. 19. To see if the town will vote to install an electric light on Village Street near the residence of Edward Kelley, or act in any manner relating thereto.

Motion made to dismiss the Article.

Substitute motion offered that an electric light be installed near the residence of Edward Kelley, which did not carry by rising vote "No" 45, "Yes" 19.

Voted to dismiss the Article.

Art. 20. To see if the town will vote to install four (4) electric lights on Farm Street, or act in any manner relating thereto.

Motion made to dismiss the Article.

Art. 27. To say that the Town will vote to appropriate the sum of \$5000 for the improvement of Christiana Street in the manner following that to:

Voted that the sum of \$5000 be appropriated for the improvement of Christiana Street.

Art. 28. To say that the Town will vote to amend Section 7 of Article 1 of the By-Laws of the Town. All taxes assessed in each year shall be payable on the 1st day of January in the same year and all interest on the same shall be payable on the 1st day of November. Interest shall be charged at the rate fixed by law.

Voted to amend Chapter 1 of Article 1 of the Town By-Laws so as to read: All taxes assessed in each year shall be payable on the 1st day of January in the same year and on all taxes not paid at or before the first day of November interest will be charged at the rate fixed by law.

Art. 29. To say that the Town will vote to amend Section 4 of Chapter 1 of the Town By-Laws so as to read: By Article Two Hundred Dollars and no more and no more than Two Hundred Dollars it will read as follows:

"No appropriation of more than one hundred dollars shall be made at any Town Meeting other than the annual meeting, unless there are present at the time a full quorum of the Town and at least half of the legal voters of the Town."

Motion made that the Article be dismissed.

Substitute motion offered that this Article be amended as worded was not carried.

Voted to dismiss the Article.

Art. 30. To say that the Town will vote to amend Section 4 of Chapter 1 of the Town By-Laws by striking out 15 and replacing it with 10 so it will read as follows:

No appropriation of Two Hundred Dollars or more shall be made at any Town Meeting, other than the annual

meeting, unless there are present at time of said appropriation at least 10% of the then legal voters of the Town."

Voted to dismiss the Article.

Art. 31. To see if the Town will vote to appropriate a sum of money to take care of the Town Dump at the junction of Village and Forest Streets, or act in any manner relating thereto.

After discussing the Article and being assured that the Selectmen would see that the Town Dump was properly taken care of, it was voted to dismiss the Article.

Art. 32. To see if the Town will appropriate the sum of \$2,063.00, two thousand and sixty-three dollars, to purchase a Fordson Tractor with full Crawler Wheels, Sargent Snow Plow Cab, Lights and fully equipped suitable for snow removal, or act in any manner relating thereto.

Voted to dismiss the Article.

Art. 33. To see if the Town will vote to authorize the Selectmen to appoint a Committee to investigate the advisability of establishing a Town Forest, or act in any manner relating thereto.

Voted to dismiss the Article.

Art. 34. To see if the Town will vote to appropriate the sum of \$900.00 for special repairs on Irving Street, or act in any manner relating thereto.

Voted that the sum of \$900.00 be appropriated for special repairs on Irving Street.

Art. 35. To see if the Town will vote to appropriate a sum of money sufficient to pay all unpaid bills to January 1, 1927, or act in any manner relating thereto.

Voted to appropriate the sum of \$2,063.70 to pay all unpaid bills to January 1, 1927.

Article 36. To see if the Town will accept the Street from Exchange Street to Ridge Street bordering the Slayton

and Cunningham Farms, as laid out by the selectmen or act in any manner relating thereto.

Voted that this Article be referred to the selectmen.
"Yes" 42. "No" 22.

Art. 37. To see if the Town will appropriate the sum of \$3,307.31 as assessed and appropriated upon the Town of Millis as its proportionate share of the expenses for the construction of the Forest Street Bridge.

Voted that the sum of \$3,307.31 as assessed and appropriated upon the Town of Millis as its proportionate share of the expenses for the construction of the Forest Street Bridge be appropriated.

Article 38. To see if the Town will appropriate a sum of money to pay land damages on Mill House Street the same to be reimbursed by the County or act in any manner relating thereto.

Voted that the sum of \$400.00 be appropriated to pay land damages on Mill House Street the same to be reimbursed by the County.

Art. 39. To see if the Town will appropriate a sum of money for Memorial Day or act in any manner relating thereto.

Voted that the sum of \$200.00 be appropriated for Memorial day, and that the Moderator appoint a committee to act as a Memorial Day Committee.

Art. 40. To see if the Town will appropriate a sum of money to be used in conjunction with the State Highway Commission under Chapter 81 of the General Laws or act in any manner relating thereto.

Voted to reconsider that part of Article 39 that had to do with Road appropriation.

Voted that the sum of \$200.00 be appropriated for roads to be used in conjunction with the State Highway Commission under Chapter 81 of the General Laws.

Art. 41. To see if the Town will vote to pay one-third (1-3) of the cost of installing the new heater in the N. Y., N. H. & H. R. R. Station, or act in any manner relating thereto.

Voted that the Selectmen be instructed to send a letter of thanks to the N. Y., N. H. & H. R. R., for installing a new heater in the N. Y., N. H. & H. R. R. Station and explain to them that it would be impossible for the Town to pay one-third of the cost on account of its financial condition.

Art. 42. To see if the Town will vote to authorize the Assessors to use the balance in the Treasury, January 1, 1927, in making up their tax rate, or act in any manner relating thereto.

Voted that the Assessors be authorized to use the balance in the Treasury to the amount of \$20,044.52, which was the balance on hand January 1, 1927, in making up their tax rate.

Art. 43. That the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning January 1, 1927, and to issue a note or notes therefor, payable within one year, any debts incurred under this vote to be paid from the revenue of said municipal year.

Voted that the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning January 1, 1927, and to issue a note or notes therefor, payable within one year, any debts incurred under this vote to be paid from the revenue of said municipal year.

Art. 44. To grant money appropriated in the foregoing articles.

Voted to grant the sum of \$104,711.45 appropriated in the foregoing articles.

Voted to adjourn.

Read Carefully

The new ruling of the Department of Vital Statistics requires that Physicians and Midwives shall upon at least give notice to the Town Clerk with such data as may be procured at the time, except the sex, which is more or less known.

Parents shall give notice with such other data as may be necessary, within ten days from the date of birth. This may depend upon the Physicians or Midwives but he must point out that the Town Clerk is not liable for the birth.

A fine of twenty-five dollars may be imposed for neglect in complying with the above rules.

The Town Clerk is required to return the exact date of return and to report all violations or neglect in making such reports.

Blanks will be furnished on application to the Town Clerk.

Dean Street Appropriation

The following is the report of the Water Department on the Dean Street extension.

Bids were called for on the following specifications.

TOWN OF MILLIS, MASS.

Water Department

Specifications for Laying Six Inch Main on Dean Street 1927

Sealed Proposals.—The Water Commissioners of Millis, Mass., will receive sealed proposals for laying a six inch cast iron Water Main about 1750 feet in length on Dean Street from Pleasant Street to the Norfolk line in said Town, until 5 o'clock July 15, 1927.

All proposals must be addressed to Charles LaCroix, Chairman of the Water Commissioners, Millis, Massachusetts.

Work to be Performed The work to be done under this contract is to develop a comprehensive, long-range, multi-disciplinary study of the environmental and economic impact of the proposed development of the proposed project. The study will be a comprehensive study of the environmental and economic impact of the proposed development of the proposed project. The study will be a comprehensive study of the environmental and economic impact of the proposed development of the proposed project.

Crossing River

11. In addition to the above mentioned matters, the fact that
12. the Government of the United States has been unable to
13. obtain the necessary information from the Government of the
14. United Kingdom regarding the activities of the Government
15. of the United States in the United Kingdom, and the
16. fact that the Government of the United States has been
17. unable to obtain the necessary information from the Government

Trenching, Laying and Back Filling — 5.00

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED
DATE 01-11-2001 BY 60322 UCBAW

[illegible]

nary material under the unit price for trenching, laying back filling, etc. All rock must be measured by the Water Commissioners to be allowed. All the necessary trenching to make connections with the water main on Pleasant Street must be made under the unit price for laying. After the pipe is laid, jointed, and tested, the back filling is to be done. The filling shall be puddled with water wherever it is possible. No rock over one cubic foot contents is to be placed in the trench, and all stone shall be surrounded by fine material when placed in trench. All surplus material must be removed after the work is completed.

Setting, Gates, Hydrants and Connections. The gates and hydrants required are to be set in place by the Contractor. Each gate is to have a gate box placed over the same properly centered and top flat at grade. Hydrants are to be set on flat stone with loose stone filling around base to point above drip.

The connection with the present line on Pleasant Street is to be made. All necessary work of connecting and taking care of any water in the trench must be taken care of by the contractor.

General Requirements.—The Contractor must supply all tools and apparatus required to fully complete the work herein defined. He must provide pumps and keep trench free of water if encountered at any time.

The Contractor must also guard and light his trenches at all times when necessary to protect travel on any street or way entered upon in the course of the prosecution of the work.

The work must be started, if possible, within ten days after the contract is awarded, and completed within thirty days after commencement.

Upon completion of the work the trench and pipe line

shall be kept in repair for state days after the day of completion of the work by the Contractor who had made the same. The Contractor shall be responsible for his work during this period.

[illegible]

2. The proposed project is consistent with the general pattern of development in the area, and the project is not likely to have any adverse effects on the environment.

1. The first part of the text discusses the importance of maintaining accurate records of all transactions, including sales, purchases, and expenses. It emphasizes that proper record-keeping is essential for determining the correct amount of tax liability.

2. The second part of the text describes the various methods used to calculate the tax liability, including the use of tax tables and the application of various deductions and credits. It also discusses the importance of understanding the tax laws that apply to the taxpayer's situation.

3. The third part of the text discusses the various ways in which a taxpayer can pay their tax liability, including by check, credit card, or direct payment to the IRS. It also discusses the importance of paying taxes on time to avoid penalties and interest.

4. The fourth part of the text discusses the various ways in which a taxpayer can claim a refund, including by filing a tax return and claiming the refund, or by requesting a refund from the IRS. It also discusses the importance of understanding the rules that apply to claiming a refund.

5. The fifth part of the text discusses the various ways in which a taxpayer can avoid or reduce their tax liability, including by taking advantage of various tax deductions and credits, or by using tax planning strategies. It also discusses the importance of consulting with a tax professional for advice on how to minimize tax liability.

THE UNITED STATES OF AMERICA
DOES hereby certify that the following is a true and correct copy of the original as the same appears in the records of the Department of the Interior:

Quantities. The following quantities are given for comparison of bids only. They are in no way limitation, and may be exceeded or diminished if necessary to complete the work.

Pipe laying — 1750 feet — 6 inch pipe

River work - 80 feet.

Gates — 3 - 6 inch.

Hydrants — 2.0 inch.

Rock work — indefinite.

All proposals are to be on proposal blanks provided for that purpose.

CHARLES LACROIX,
LYON C. KING,
HIRSH LACROIX
Water Commissioners, Millis, Mass.

PROPOSAL

For Laying Six Inch Water Main on Dean Street, Millis, Mass.
1927

Dated July 15, 1927.

The undersigned, Arthur DePasquale of Milford, Mass., has duly examined the specifications and location for laying a six inch main on Dean Street, Millis, Mass., and acquainted himself with all details and contingencies affecting the work outlined thereunder and will take in full compensation for performing all work, furnishing all required material and tools the following sums.

For each and every foot of six inch pipe laid the sum of \$1.00 dollar (\$1.00).

For laying pipe across the river the sum of \$1.00 dollars (\$1.00).

For each and every six inch gate and box set the sum of Two Dollars (\$2.00).

For each and every hydrant set the sum of Ten Dollars (\$10.00).

For each cubic yard of rock work excavated from the trench as per specifications the sum of \$5.00 dollars (\$5.00).

Signed,

ARTHUR DEPASQUALE

For each and every foot of 6 inch pipe laid the sum of Fifty-eight Cents (\$0.58).

For laying pipe across the river the sum of Four Hundred Dollars (\$400.00).

For each and every 6 inch gate and box set the sum of Two Dollars (\$2.00).

For each and every hydrant set the sum of Eight Dollars (\$8.00).

For each cubic yard of rock work excavated from the trench as per specifications the sum of six Dollars (\$6.00).

Signed

L. P. FEDERACO & CO

For each and every foot of 6 inch pipe laid the sum of Sixty-Five Cents (\$0.65).

For laying pipe across the river the sum of Seven-fifty Dollars (\$75.00).

For each and every 6 inch gate and box set the sum of Eight Dollars (\$8.00).

For each and every hydrant set the sum of Eight Dollars (\$8.00).

For each cubic yard of rock work excavated from the trench as per specifications the sum of Ten Dollars (\$10.00).

It is understood that the Town will furnish gate hydrants, gates, etc.

Signed

THOMAS F. MALLOY

Mills, Mass. July 1897

The Water Commissioners of the Town of Mills having accepted the bid made by Thomas F. Malloy for the purpose

ance of all the conditions as specified in the proposals to which this is attached, it is agreed by and between said Malloy and said Water Commissioners acting for the Town of Millis, Massachusetts, as follows:

That the said Malloy agrees to carry out all the conditions mentioned in said proposals as to labor and materials, workmanship, etc., according to the terms and provisions of said proposals, all the work to be done in a good, workman-like manner, satisfactory to said Water Commissioners; and the said Commissioners agree to make payments to said Malloy for the work and materials furnished as follows:

90% of the cost of labor and material when actually in the proportionate part of work completed, and the balance sixty days after the whole of the work is completed according to the terms hereof.

THOMAS F. MALLOY,

Water Commissioners of the Town of Millis, Massachusetts

By

CHARLES LACROIX,

LLOYD C. KING,

HIRAM LACROIX.

Town appropriation	\$220 00
--------------------	----------

Amount appropriated	444 51
---------------------	--------

Unexpended balance	44 49
--------------------	-------

The appropriation was spent as follows:

Planting of shade trees	\$27 25
Trimming shade trees and burning dead trees	100 00
Cutting and burning brush	100 00
Insurance	2 00
Supplies	10 25

Nineteen maple were planted this year all of which were alive this fall.

The dead trees are just about all taken care of now, but there is quite a lot of old trees that need some trimming and

this will have to be done this next year. There is also brush that needs cutting but it had to be left until the next year.

I spent \$377.49 for brush out of the State allowance of \$3,800 as 10% of this is to be used for roadside brush.

LLOYD C. KING,

Tree Warden.

Town for fines on other complaints	255 00	
	<hr/>	
	\$560 00	

Respectfully submitted,

JOHN F. SULLIVAN

To the Citizens of the County of 1905

I have the honor to report to you the condition of streets for 1927. I recommend an appropriation of \$95,000 for the year 1928 to cover the same.

I could recommend for road repairs and other appropriation. Main Street to be resurfaced, gravel and tarred \$15,000; Marshall Street resurfaced and gravel \$40,000; Irving Street resurfaced, gravel and gravel \$70,000; Union Street to be resurfaced, gravel and gravel; Exchange Street for drainage purposes \$50,000; the following streets are gravel and drainage: Union Road \$20,000, Orchard \$4,000, Spencer \$4,000, Forest Road \$30,000, Park Street \$5,000, Baltimore \$5,000. The balance to be used for purchase of oil and general maintenance being in connection with the suggestions of engineer of the State Highway Commission.

REPORT OF PARK COMMISSIONERS

Millis, Mass., Jan. 1, 1928.

Town appropriation, \$350.00

Expenditures

William Hamm, for labor,	\$21.60	
Nesbit Clark,	17.10	
E. LaCroix & Son,	30.53	
Arthur Choate,	18.40	
L. C. King,	29.38	
Oak Grove Farm,	23.25	
Phipps Bros., Gravel,	93.75	
C. E. Simpson, General Work around Park,	52.31	
Edison Electric Illuminating Co.,	15.12	
C. E. Simpson, cutting & burning bushes,		
Millis,	8.56	
	<hr/>	
	\$350.00	\$350.00

We secured of C. E. Simpson & Son, 8 Seats for Park. Standards of them are of reinforced concrete. Seats and Backs are nearly all of oak. They are 16 feet long and we think they are very good for the money.

We also bought of Chase Bros., 18 maple trees for Millis Park which are living and doing well. Money for Seats and Trees are from 1926 Appropriation. (See last year's Town Report).

C. E. SIMPSON,
MARTHA E. PALOSKI,
T. CHAPEL WRIGHT.

COURT CASE PENDING

The Commonwealth of Massachusetts, by and through the Attorney General, vs. John J. McCarroll, Defendant.

Commonwealth of Massachusetts.

That the Defendant, John J. McCarroll, is a resident of the County of Suffolk, State of Massachusetts, and is a person of legal age and sound mind, and is a citizen of the United States.

That the Defendant, John J. McCarroll, is a person of legal age and sound mind, and is a citizen of the United States.

That the Defendant, John J. McCarroll, is a person of legal age and sound mind, and is a citizen of the United States.

That the Defendant, John J. McCarroll, is a person of legal age and sound mind, and is a citizen of the United States.

writ is issued by order of court to summon in said inhabitants of the town of Millis, and make it and join it as Party defendant with said Timothy J. McCarthy and Henry F. Peare in an action of contract to the damage of the said Plaintiff (as he says) the sum of six hundred dollars, which shall then and there be made to appear with other due damages. And have you there this writ, with your doings therein.

Witness, Walter Perley Hall, Esquire, at Boston, the thirteenth day of December in the year of our Lord one thousand nine hundred and twenty-seven.

FRANCIS A. CAMPBELL,
Clerk.

A true copy, Attest:

EVERETT L. COLDWELL,
Deputy Sheriff.

RELEASE OF PARK LAND

The Selectmen have obtained a release from heirs of H. Millis of the land on the southerly side of Curve and Union Streets, and known as the Millis Park. Said land had been deeded to the town for park purposes only. By this release the town has the right now to sell any part or the whole of said property, or to develop it in any way the town may decide, with the authority of the State Legislature.

Respectfully submitted,

J. ALLEN COLE,
ARTHUR CHOATE,

Selectmen.

REPORT OF THE FIRE DEPARTMENT

Millis, Massachusetts.

Board of Selectmen and Citizens,
Millis, Massachusetts.

Gentlemen:

Herewith we wish to present report of the Fire Department conditions as we have found them the past year.

It is fortunate to have had a year of exceptionally small fires and may it continue so for our mutual benefit.

Company No. 1, Millis, consists of fifteen members.

Company No. 2, Rockville, consists of ten members.

These companies are smaller than in past years but are doing the work even more efficiently than larger units have.

We have made a number of improvements this year where most needed and have several more either in progress or to be done.

House wagon at Millis has had extensive changes made on it, and it is now a tender for Maxim Pumper.

This is a step ahead that much larger towns are doing to get apparatus ready for present day action.

May we say that payment for this work was arranged for between Fire Engineers and Maxim Motor Co. as follows, that \$300.00 be paid from this years appropriation, as per Financial report and balance due \$615.00 from 1928 appropriation.

This agreement was accepted by all concerned as the best interest for the Town as it was much cheaper to get one complete job done at one time.

We have had two out-of-town calls for aid and forty five town calls this year, a list of which we print.

Practice is held every two weeks in summer and through the winter every month at which we operate a **Fire School at Millis.**

We are asking in the Warrant for increase in salaries for Firemen from present \$5.00 to \$25.00 per year. The 75 cents per hour fire time to remain as at present. We are asking Engineers salaries be increased from \$25.00 to 50.00 per year. Fire Engineers do not receive any Fire time. The above small increases we believe are justified especially in Millis where the pay is much lower than any other town operating an efficient Fire Department.

In order to keep the Fire Department up to the standard that we wish and that the Town requires, we ask you for the sum of \$3,500.00 to maintain and \$500.00 for Hose next year.

Yours for service,

D. C. ADAMS,

M. B. LaCROIX,

O. C. POND

REPORT OF Sewer Commissioners

Superintendent's Report

To the Sewer Commissioners of Millis:

This last year the sewer beds have taken a great deal more care than usual and also the expenditures of quite a lot more money. The filtration was so poor and the flow so great that it required a great deal more time to keep the system working and not have the banks of the beds give away. The beds being so full all of the time kept the banks soft and the danger of them washing away was present at all times up until July when I had to keep a pump there and pump some of the sewerage direct out into the swamp.

I was able to get all the beds but one dry this fall by using the pump and not having such a large flow to take care of. They have all been cleaned and plowed. The process of filtration is carried on much better than it was but it is not as it should be now. It can't be improved without spending some extra money.

I therefore recommend that two extra beds be built as the excavation is practically done, and this would take care of anything that might be added for quite awhile. Also the system is badly in need of a drainage ditch to carry the flow towards the river instead of having it spread around the swamp as it now does. The four beds of the present system should also be resurfaced.

Respectfully submitted,

LLOYD C. KING

Report received from

J. E. M.

Asst. Sec.

The care of the sewer beds caused by their inability to handle the amount of sewerage thrown upon them this year cost more money than we had, and the willingness of the selectmen to pay for this work out of their municipal department saved the town the trouble of a special meeting. The situation is now more acute than it was a year ago and in accordance with the estimate made by the Engineer will cost about \$20,000.00 to build two additional sewer beds, a drainage ditch and resurface the present beds. Any long postponement of this important work will add to the cost and might in time seriously affect the purity of our water supply.

Respectfully submitted,

E. F. RICHARDSON,

H. H. THORNE,

L. C. KING.

Following is a communication from the State Board of Health dealing with this situation.

July 19, 1927.

To Mr. Euan F. Richardson,
Chairman, Sewer Commissioners,
Millis, Massachusetts.

Dear Sir:

The Department of Public Health has considered your request for advice as to the improvement of the sewage disposal system of the town of Millis and has caused the works to be examined by one of its engineers.

The works at present consist of a settling tank, the upper part of which is used as a drying tank, four filters having an aggregate area of about 0.75 of an acre, and

two small sludge beds. In order to determine the available area of filters required for the present disposal of all of the sewage of the town, the Department has caused estimates to be made as to the total quantity of sewage collected by the sewerage system, including sewage estimated at the University of Chicago and sewage discharged from the Chicago Club power house. From these estimates it appears that the quantity of sewage conveyed to the disposal ponds during the same part of the year amounted to an average of about 110,000 gallons per day. The quantity of water from the washing of bottles at the power house that reaching the ponds apparently varies from 5,000 to about 75,000 gallons per working day, the maximum rate occurring in about 250,000 gallons per 24 hours. The Department of Sanitation shows that the sewage water reaching the ponds is not objectionable and that it is not practicable to keep this water separate from the sewage and the water waste. It would be dangerous from the health point of view to plant with an existing plant or to construct a plant affecting the water supply of the town of Chicago. It is practicable to remove the sewage water from the ponds, the quantity of sewage requiring disposal could be somewhat reduced.

The chief engineer of the sewerage board has shown that a large part of the sewage reaches a plant present and that additional filters are necessary in order to care for all of the sewage collected in the present sewerage system. The additional capacity of the present plant at the present time is about one-half that the present might be reduced somewhat if a reduction is effected in the quantity of waste discharged from the greatest of plants.

The Department recommends that additional filters be

provided at the earliest practicable time in order to prevent further pollution of the Charles River and its tributaries, especially since the discharge of unpurified sewage into the Charles River or its tributaries in this region is contrary to existing laws. As soon as plans are available for additional filters the Department will be pleased to advise you concerning them, if you so request.

Respectfully,

GEORGE H. BIGELOW, M. D.
Commissioner of Public Health.

teachers. Continued study of educational problems while one is actually teaching has been found necessary if a teacher is to keep educationally awake. Most of our personnel have measured up well to these items. Each year our new teachers are chosen from those who have received normal school or college training (or the equivalent in the case of special teachers). Each year more care is used in picking out teachers to fit the work they are to perform. Each year many of our teachers spend time and money to take courses at the various colleges and normal schools, or in extension departments, so that they can do a better job. Wherever we find persons who show no willingness to make a careful study of the big task of teaching we plan as soon as possible to replace such by more competent instructors. In this way, we feel that we are giving the best service to our boys, our girls, and our Town.

Health

How to get well is our first thought when sick. The schools believe we ought to think more about how to stay well when sickness is far away. For such reasons, the State requires the employment of school physicians and nurses. Millis is co-operating very well in this matter. Our school physician stands ready to care for serious health problems as they arise. Every morning during the school year our nurse visits the buildings. She watches carefully for symptoms of disease and when any appear works with the parents and physicians to stop its spreading.

But this is only one part of her duties. With the help of each teacher, she plans to train each child in those

Health Education is a continuous process throughout the entire life. The following is a summary of the major health education goals, which are to be achieved by the community health workers, and the objectives for each of these goals.

A well-planned health education program should consist of the following goals:

1. To encourage physical activity. All ages will be encouraged to take at least 30 minutes of physical activity each day.
2. To encourage the people to take control of their health by adopting healthy behaviors, such as eating well, exercising, and not smoking and drinking.
3. To encourage people to take control of their health by making healthy choices, such as eating, drinking, and using tobacco, and others.
4. To encourage people to get regular checkups and to understand the importance of preventive health care.
5. To encourage people to take control of their health by practicing good oral health, such as brushing and flossing, and visiting the dentist.
6. To encourage people to take control of their health by practicing good mental health, such as managing stress and seeking help when needed.

Many additional health education goals are possible. The

more efficiently such a program is organized the better are the results and the wider the field covered.

The Course of Study

The entire United States is taking account of stock in its schools. Just as the ox cart and stage-coach are out-of-date, so have many things formerly taught in our schools had to give way to more modern ideas. Before throwing away the old material educators feel that we should study our present-day needs, decide what modern society must use, and then plan our education to fit.

The teachers of this Union have begun to follow out the nation-wide plan, whereby educators in each community will band together into committees to make a survey of their needs and will then choose the subject-matter best suited to such needs. Committees have met to organize such survey and study here. The results will in time improve the subject matter, methods, and results in each school.

Athletics

Athletics has been very successful during the past few years. In several ways excellent gains have been made in this part of our school activities.

The employment of a teacher-coach has brought together under one head a great many types of sport for the boys. For the girls, the same kind of development is under way.

Cleaner playing is one of the most striking gains shown under this system. Harder playing has brought

victories to the teams. When they played last season in building up an all-round team, they were successful. At class teams had declined to play, the school's sports team suffered a severe blow. The school's sports teachers, who had been asked to coach the team, brought about a change of heart in the school's sports teachers.

Physical Education

Closely related to Health and Education is Physical Education. In a small way, we are living in a time when the physical training of the young is being given more attention than in the past. The physical education of the young is being given more attention than in the past. The physical education of the young is being given more attention than in the past.

Mr. Schrader said he was not at all surprised that the committee would have been so candid in its report. He said that the committee had done its duty in a most eloquent and convincing manner. He said that the committee had done its duty in a most eloquent and convincing manner. He said that the committee had done its duty in a most eloquent and convincing manner.

Our Needs

Our needs this year are very similar to those of last year.

in every well-ordered home. Replacements, improvements and additions.

Replacements of books, supplies and equipment run about the same as in the past.

Many new needs are largely in the Adult School. Before long some attention must be paid to its renovation. Better blackboards, improved toilet ventilation, increased lighting through improved window shades; these are a few things to be considered. In several other ways this building and the high school building could be made attractive and serviceable.

Others are needed and would be such as will make the high school more homes.

Our most important need is additional space. The present school is crowded. The ideal plan would be to build a new building to do present high school work and another would take care of several other needs at the same time. It would help us better to take up a more improved physical education program. It would aid us greatly in the matter of school assembly. It would provide more pleasant and more convenient lunch room facilities both in the matter of food, service and in the amount and quality of serving. At the present time we are holding several lunch rooms in a little used corridor. This is a makeshift, very temporary arrangement as it is contrary to a more strict interpretation of state building regulations.

Another important need is the addition of one more teacher to the high school faculty. Today, our teachers are handling more subjects and classes than the average high school teacher. They are skimping in the money that is given to our boys and girls. They are

the ones who will make the sacrifice to crowded conditions. And additional teachers allows more individual attention to each pupil, allows more preparation for each subject, allows better teaching and producing greater results.

Still other additions that will only add more to the following:

1. A school library containing helpful newspapers, books, volumes that will supplement the work given in every subject studied, and booklets and magazines on general information and topics that will help to give our boys and girls greater knowledge of every day activities in the world about them.
2. Additional equipment for the science department. This department is very important and one should never neglect it. It is the only way all the pupils can get the most out of the science they ought to carry out.

Tables

Below are given a series of tables to show clearly the main facts about our school.

Respectfully submitted,

A. HOWARD WILLIAMS JR.

REPORT OF PRINCIPAL

To the Superintendent of Schools of Millis:

In accordance with custom, I am pleased to submit herewith my annual report.

The school in all departments has been running smoothly this year. The Junior-Senior High School System that was introduced last year is functioning satisfactorily, and showing itself more and more efficient as time goes on. There is noticeable good feeling and an interest necessary for the best results between teachers and pupils.

The school is in class A, and everything is being done to make it a high grade class A school. It has been called to our attention that in some cases too much home work has been assigned. This may be true in a few instances, but not as a rule. The requirements in the higher institutions of learning have been increased in recent years, and in order to meet these requirements it is necessary to cover more ground than formerly, and to mark more closely. We wish to have every girl and boy cover the work prescribed by the high school courses of study. Thus, only, may we maintain the high standard desirable.

This fall, at a union teachers' meeting held in Medfield, it was recommended that the Union prepare a course of study, uniform for the four towns, to meet its own needs. A committee was appointed, and said committee assigned a subject to each town in the Union, with the intention that the town should decide just what work in the subject assigned to it should be covered in each

**TOTAL ENROLLMENT, SCHOOL YEAR 1915-16
TO JAN. 1, 1928.**

School Year	Elementary School Grades 1-8	Ellice School Grades 1-8	High School Grades 10-11-12	Total Enroll- ment	Census
1915-16	197	58	64	319	1442
1916-17	179	46	59	284	
1917-18	200	68	63	330	
1918-19	193	73	61	327	
		Grades 1-2-3			
1919-20	235	23	68	326	1485
1920-21	237	41	62	343	
1921-22	252	24	78	354	
1922-23	278	No Reg.	59	337	
1923-24	307	27	60	394	1791
1924-25	283	21	67	371	
1925-26	291	23	65	379	
1926-27	300	24	81	405	
1927-28	278	23	96	397	
Increase	24.2%		30%	24.73%	24.2%

Note: In trying to make a fair comparison to show, on a percentage basis, the growth of our school and the population of our town, I have used the first three years of the table (1915-18), and the last three years (1925-Jan. 1928).

From this table it may be seen that while the enrollment of the elementary grades is increasing at the same rate as the population of the town, the high school enrollment is increasing more rapidly, that is, more pupils

are at present in high school, rather than dropping out or going elsewhere, than formerly. It is probable to suppose that the excellent conditions in attendance and the problem of course will have to be solved directly here.

The course also reports that the course has been very much improved. This is the fact.

Reported by Seniors on Dec. 23, 1927:

	Decided	Undecided
1. College	1	1
2. Industrial School	1	1
3. Business School	1	1
4. Law School	1	1
5. Medical School	1	1
6. Engineering School	1	1
7. Other	1	1
Total	7	7

This shows that the course is very popular and that the students are very much interested in it.

The course also reports that the course is very much improved. This is the fact.

The course also reports that the course is very much improved. This is the fact.

it possible for all the grades in the high school building to study music with accompaniment.

An exhibition of school work of all grades was held in May. Each room, with the pupils' work displayed, was open for inspection for two afternoons and one evening. There also was an art exhibit, one by Miss Honen's Cooking Club, and one by Miss Ehnes' Sewing Club. In the evening the teachers were in their rooms to receive visitors. The Cooking and Sewing Clubs presented a program. Mrs. Wimbolt and Miss Elinore Cole planned a Health Pageant, consisting of a health play from each grade, for the second afternoon; this was postponed for two weeks because of weather.

On November 11, Miss Elinore Cole, assisted by the Glee Club, presented a cabaret entertainment for the benefit of the Vermont flood sufferers. Twenty-six dollars and ninety cents was sent to Vermont, and a very courteous letter was received from the Governor of Vermont, thanking us for same.

Miss Ehnes and Miss Honen started their sewing and cooking clubs early in the fall. The classes are held one afternoon a week after school. A full description of both courses was included in our report last year. All of the twenty-three girls enrolled in the clubs completed their requirements, and received their pins from the Norfolk County Agricultural School last year. This work is absolutely voluntary on the part of both teachers and pupils. We hope the parents will encourage this work, because we think in time a domestic science course, including both cooking and sewing, should be a part of our regular course of study.

Our baseball team had a successful season and ended in second place in the Tri-County League.

a general celebration was held in the Grange Hall to recognize both boys and girls in the different sports of the school. Letters were awarded and a social evening followed. We think this was a good step and in accordance with a policy that will be followed up to promote loyalty, interest in athletics and school spirit.

Last spring our school had the pleasure of entertaining the other schools in the Tri County League at Millis for the annual track meet. The final count gave our boys second place in the meet. The girls were proud to win first honors and the girls' silver cup. Evelyn Lindahl succeeded in taking first place in several events.

An athletic association has been formed from the four upper classes of the high school this year. All girls and boys of these classes are encouraged to join. The object of the association is to organize and promote athletics. The Athletic Association chooses a manager for each team, who, among other duties, arranges the schedule for the next season. The Association has charge of organized cheering at the games. It is the duty of the Association, also, to promote other activities, such as giving entertainments by means of which money can be raised for the needs of athletics. While the school can be represented on the ball-field by only 5, 9 or 11 men, by means of an athletic association it is represented on the sideline by all the pupils. They feel that the team is **their** team, and a greater interest in athletics is developed. An athletic association also is helpful in training girls and boys to take responsibility.

We noticed that a number of parents visited school for Christmas exercises. This is encouraging to the

 idea of the "moral law".

REPORT OF THE SUPERVISOR OF DRAWING

Mr. A. Howard Williamson, Superintendent of Schools

Dear Mr. Williamson:

During the first quarter, or from September to Christmas, we have been striving to have the grades express themselves through the medium of crayons, paints and pencils — representational work. By calling attention to objects and laws of nature, the memory and visual powers are gradually strengthened. A brief of the grades is as follows:

Grade I — Familiarity of common objects as house, stone, tree; animals and people. Particular stress is laid upon children expressing themselves in this grade. Love of drawing and desire to create will inevitably follow.

Grade II — Similar to Grade I with more advanced steps — combining of one familiar object with another.

Grade III — A step further along, combining several familiar objects.

Grade IV — Much time spent on study of big proportions of human figure.

Grades V & VI — Study of human figure in more detail and VI with new medium as well.

Grade VII — Free expression and casting of attention to good parts and speaking of impressions of things it is made, or has shown in their own artistic character.

Grade VIII — Further work in sketch and coloring the human figure and attempts at architectural drawing and printing.

Grade IX — High school students ready to express a sense of action. Plain printing and the making of posters, book covers, and other printed forms. Study of technique, design, printing, and the use of color to make it successful. The following section will be simple and bold. The following section will be devoted primarily to design for business purposes as found in nature and then illustrated by the business world and every day use. There will be great opportunity for the student to use his own feeling of materials and following of examples.

I hope this report will give a general idea of what we are doing.

Very respectfully,

EDWARD S. BROWN

REPORT OF MUSIC SUPERVISOR

To the Superintendent of Schools of Millis:

It is again my privilege to submit my report on the work on music in the Millis Schools.

The aim of the music course continues to be that of fostering a love for music and encouraging self-expression through that delightful medium, song. Every song presented to a child, regardless of his age, must have some appeal, first through the subject of the poem, second through the rhythm, and last, and by no means least, its melody. Of course, every song does not appeal to every child, but there is no child that cannot be reached by at least one of the many varieties of songs presented him.

The present tendency among the upper classes is toward the popular and jazz types of music. This is of course only another development of the modern age, and while not to be developed greatly in school, must be given consideration and careful guidance.

The newest and best books of school music are in the hands of our pupils. A new set has been purchased for the fifth grade; new books are supplementing the once inadequate supply in grade three; and new books have been introduced at Rockville. At present we are considering a new volume for use in the Junior High School which may be used also in the Senior High School for recreational singing.

The Girls' Glee Club in the Senior High School is a recognized factor in the development of our school work. The present organization consists of forty enthusiastic girls who demonstrate their willingness and

REPORT OF PHYSICIAN

To the Superintendent of Schools of Millis:

During the school year of 1926-1927 there were no epidemics of contagious diseases and few, if any, isolated cases. Attendance records, as a whole, showed relatively few absences from illness.

The problem of underweight seems to be of most importance and in a majority of cases improvement has been noted. This condition seems to have but little bearing upon the grades of those who are in the upper classes. A check-up showing that the average ages of those of normal weight were about the same as those who are below normal weight.

Called to mind the condition of the teeth and throat attracted most attention.

Care of the teeth, during school age, was suggested and the idea of preventing more serious conditions in later life and to insure normal development.

Attention was called to throat conditions only where there was evidence of obstruction to breathing or where fairly definite indications of infection were present.

There were some cases of poor posture but these appeared to be more or less a matter of habit and training and it is hoped that they will be improved by systematic of correct exercises.

FRANK J. PIPER, M. D.

REPORT OF SCHOOL NURSE

For the convenience of reference:

The health of my school children has been fairly good the last year and no contagious disease has been introduced into the school. The children are healthy.

The children have been vaccinated for small pox and diphtheria. The children have been vaccinated for measles and mumps. The children have been vaccinated for whooping cough and scarlet fever. The children have been vaccinated for typhoid fever and cholera.

The children have been vaccinated for small pox and diphtheria. The children have been vaccinated for measles and mumps. The children have been vaccinated for whooping cough and scarlet fever. The children have been vaccinated for typhoid fever and cholera.

After many postponements we held our Health May Day on May 31, in the Town Park, and it was a decided success.

The prizes for the underweight children who gained the most while we served the milk were awarded to Eleanor McCarthy, Gr. VII; Milton Bailey, Gr. VI; Shirley King, Gr. III; and Carter Wells, Gr. I.

We have two boys in hospitals, one in Norfolk County, and one in Pittsfield, both getting along very nicely.

Respectfully submitted,

JEAN S. WAMBOLT

As yet little can be said in the way of predicting the kind of basketball season the girls will have, but the spirit and interest they put into the game will give them a training and experience, the good of which will more than compensate for the time put in. The old idea was that women should train for motherhood by remaining on the sidelines watching the men participate in their game, and any act by a young woman to take part in any athletic encounter was met with horrified indignation from her parents; but today we are glad to say that this idea no longer prevails, and that all women's athletics are met with approval by everybody, and the sporting world now includes their activities. This has been done to encourage girls to take part in all kinds of physical competition, which will train them to be better equipped to carry on the object which all our ancestors have tried to do — have these young women be the mothers of a generation better by far than any of its predecessors.

Crimson and White

Class Motto

All that you do, do well

SCHOOL NOTES

The School Committee holds its regular meeting the last Friday in the month at 7.00 P. M., in the office of the High School Building. Parents are invited to meet the Committee at any of its meetings to confer on any school matters or pupils' problems.

During 1926 the Committee held 8 regular and 8 special meetings.

Richard H. Downing, Chairman,	attended 15 meetings.
Rudolph F. King	" 16 meetings.
William B. Esselen	" 16 meetings.
Theodore W. King, Superintendent	" 6 meetings.
A. Howard Williamson, "	" 4 meetings.
Clyde F. Brown, Principal	" 10 meetings.

The Committee refers to the departmental reports for details of our school activities and academic work and statistics. We believe all citizens will find these reports of interest.

As far as funds would allow, we have continued the conditions of our school buildings. All the desks and policy of the past two years, of improving the physical chairs in Room 1 of the High School Building have been replaced with modern equipment of the latest type — the desks in Room 4 have been repaired and put in proper condition. During the summer the walls of all class rooms were washed, and all desks and chairs washed and shellacked. The wooden platforms and steps to the Adams School have been replaced with concrete.

At the meeting of the Union, of which we are a part, it was voted to increase the amount of money paid by the Union for the School Superintendent and after several meetings and a thorough search for the right man, the Union elected Mr. A. Howard Williamson as superintendent for three years. Your committee feels we are fortunate, indeed, to have been able to obtain the services of a man of Mr. Williamson's caliber. While he has been with us only since the first of September we find his policies are already showing results and we look for a steady improvement in the value of our schools to our community under his guidance.

The increase in the size of classes in the High School Building has overflowed the normal capacity of this building. We have handled this condition, temporarily, by improvising a class room in one of the halls. Mr. Brown, at the request of the Committee, has compiled carefully and very completely, figures showing what may be expected as the natural growth of our school population of the High School Building. These figures indicate that the building of the new wing to this building can be put off for about three years, provided the town will appropriate enough money to allow the changing of what is now the office and teachers' room into a class room. This improvement will cost not over \$1600 and we are asking for this special appropriation this year.

The Committee wish to express their appreciation to the Superintendent, the Principal, the Teachers, Nurse, Coach, the Janitor and to the Citizens of Millis for their co-operation and enthusiastic support.

In making up our recommendation for the appropriation for the coming year, we wish to call the attention

of the Citizens of Millis to the cost, per pupil, for educational purposes. The statistics of the State Board of Education shows that the average cost, per pupil, for the whole state in towns of less than 5,000 inhabitants is \$91.97. The average cost, per pupil, in the Millis Schools will be \$89.20 if our recommendations are carried out.

Our recommendations, in detail, are as follows:

Supervision and control.....	\$ 870.50
Salaries	22,780.00
Text Books	800.00
Supplies	800.00
Janitors	1,760.00
Repairs	500.00
New Equipment	500.00
Transportation	2,800.00
Fuel	1,200.00
Health	1,000.00
Miscellaneous	250.00
Athletics	500.00
Unpaid Bills	850.00
Total	<hr/> \$34,610.50

Respectfully submitted,

School Committee,

RICHARD F. DOWNING, Chairman

RUDOLPH F. KING

WILLIAM B. ESSELEN
